RAPPORTEUR'S AMENDMENT - Rule 23(3)

AMENDMENT 26 R

SACRÉDEUS

A renewed European agenda for research and innovation

SEDEC-VI/047

This amendment relates to amendments 26, 32, 33, 36

Point 19

<i>Draft opinion</i>	<i>Amendment</i>
	<i>notes that the European Commission's Proposal for a Regulation of the European Parliament and of the Council establishing Horizon Europe – the Framework Programme for Research and Innovation states that specific measures for the EU's outermost regions are justifiable with regard to their access to EU horizontal programmes, taking into account their structural, social and economic situation. The CoR regrets that the proposed text does not do the same, which will make it hard for the programme to take into account the specific needs of these regions and their unique assets as test beds for research and innovation in areas such as bioeconomics, climate change, in accordance with their smart specialisation strategies;</i>

Reason
New point joins amendment 26 with amendment 32, 33 and 36.
